Re: **Amendments to Audit Trail Guidance**
Reference File: SR-NFX-2017-15

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (“Act”), and Sections 40.2 and 40.6 of the Commission’s regulations thereunder, NASDAQ Futures, Inc. (“NFX” or “Exchange”) hereby adopts amendments to audit trail guidance originally filed as SR-NFX-2015-38 in the form of a Futures Regulatory Alert as set forth in Exhibit A. The Futures Regulatory Alert would be issued on April 3, 2017. The date of implementation is July 3, 2017.

The Exchange will issue a Futures Regulatory Alert providing participants with amended guidance on NFX Rules concerning audit trail. The Exchange’s alert advises market participants on the audit trail requirements, as provided in NFX Rules, and responsibilities of Futures Participants and Authorized Customers to maintain information for all Orders and Quotes entered into the NFX Trading System, including Order and Quote modifications and cancellations.

With respect to the designated contract market core principles (“Core Principles”) as set forth in the Act:

Compliance with Rules: Today the Exchange has in place Rules which describe the manner in which Futures Participants may access and trade on NFX. Chapter II, Section I provides for the qualifications and rules of participation applicable to Futures Participants as well as Authorized Traders. Chapter V, Section 18 describes prohibited activities with respect to the Trading System. Trading is subject to the Rules at Chapter III of the Exchange’s Rulebook, which include prohibitions against fraudulent, noncompetitive, unfair and abusive practices.

Additionally, trading is subject to the trading procedures and standards in Chapter V of the Rulebook. The Exchange's disciplinary Rules are contained in Chapter VI of the Rulebook.

Prevention of Market Disruption: The Exchange's Regulatory Department, which handles real-time surveillance, monitors trading activity on the Exchange with a SMARTS Surveillance Application through which the Exchange can track activity of specific Authorized Traders, monitor price and volume information and receive alerts regarding market messages. The Exchange's Regulatory Department, which handles real-time surveillance in conjunction with staff that handles T+1 surveillance, utilizes data collected by the SMARTS Surveillance Application to monitor price movements, as well as market conditions and volumes to detect suspicious activity such as manipulation, disruptive trading and other abnormal market activity.

Availability of Contract Information. The Exchange has indicated within its trading Rules where specific information relates to a particular Contract. The Exchange will post the terms and conditions of Exchange Contracts in its Rulebook along with trading Rules.

Protection of market participants. Chapter III of the Exchange's Rulebook contains prohibitions precluding intermediaries from disadvantaging their customers. These rules apply to trading in all Contracts.

There were no opposing views among the NFX's Board of Directors, members or market participants. The Exchange hereby certifies that the rule amendments comply with the Act and the Commission's regulations thereunder. The Exchange also certifies that notice of pending certification and a copy of this submission have been concurrently posted on the Exchange's website at business.nasdaq.com/futures.

If you require any additional information regarding the submission, please contact John Pickford at (215) 496-5273 or john.pickford@nasdaq.com. Please refer to SR-NFX-2017-15 in any related correspondence.

Regards,

Daniel R. Carrigan
President

Exchange Audit Trail FAQ
Chapter V, Section 1
Chapter V, Section 4
Rule Self-Certification

NASDAQ Futures, Inc. ("NFX" or "Exchange") has amended its Audit Trail Requirements (SR-NFX-2017-15). The date of implementation is July 3, 2017.

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended ("Act"), and Sections 40.2 and 40.6 of the Commission's regulations thereunder, NASDAQ Futures, Inc. has adopted amendments to audit trail guidance originally filed with the Commission as SR-NFX-2015-38.

Pursuant to NFX Rulebook, Chapter V, Section 1, each Futures Participant shall maintain or cause to be maintained audit trail information for all Orders entered into the Trading System, including Order modifications and cancellations. This audit trail must contain, at a minimum, all Order and Quote entry, modification, cancellation and response receipt time(s) as well as Financial Information Exchange interface (FIX) tag information as applicable. Futures Participants are required to produce, upon request by Nasdaq Futures, Inc. or its Regulatory Services Provider, the audit trail for all Orders and Quotes submitted to NFX in a format prescribed by NFX.

The National Futures Association ("NFA") is the Regulatory Services Provider for NFX. Generally, Futures Participants will receive requests for audit trail information from the NFA.

Please refer to the Frequently Asked Questions document for Audit Trail requirements.

EXCHANGE AUDIT ~~TRIAL~~ TRAIL REQUIREMENTS:

FREQUENTLY ASKED QUESTIONS

New-NFX Website: <http://www.nasdaqomx.com/transactions/markets/nasdaq-futures> business.nasdaq.com/futures

1: What are the audit trail requirements with Direct Access?

Pursuant to Chapter V, Section 4, Clearing Futures Participants authorizing a connection to the Trading System are responsible for maintaining or causing to be maintained the audit trail for all Orders submitted to NFX; and producing, upon request by NFX or its Regulatory Services Provider, the audit trail for all Orders submitted to NFX by an Authorized Customer. Each Authorized Customer connecting to the Trading System is responsible for maintaining or causing to be maintained the audit trail for all Orders submitted to NFX. A Clearing Futures Participant that has arrangements for a third party to maintain audit trail information on its behalf shall remain responsible for compliance with NFX audit trail rules.

2: How long must the audit trail be maintained?

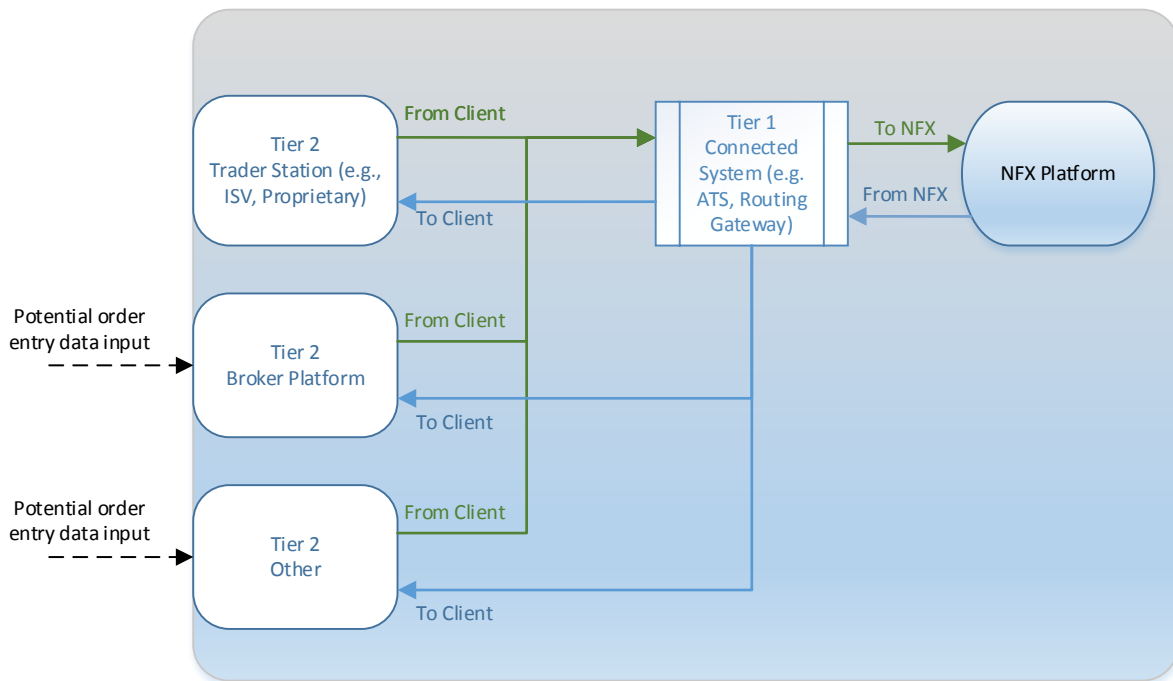

All Electronic audit trails must be maintained for a minimum of five (5) years. Upon the request of NFX, each Futures Participant, Clearing Futures Participant and Authorized Customer must have the ability to produce to NFX the audit trail data in a format prescribed by NFX.

3: How should Bunched Orders be reported?

Pursuant to Chapter V, Section 12, for post-execution allocation of a Bunched Order, a Futures Participant acting as an Eligible Account Manager (as defined by Commission regulation 1.35(b)(5), need not provide, at the time of either Order entry or report of Order execution, specific Customer Account identifiers for accounts included in a Bunched Order, if the Futures Participant complies with the requirements of Commission regulation 1.35(b)(5), as applicable. A Futures Participant that executes Bunched Orders or carries accounts eligible for post execution allocation of Bunched Orders must maintain records that, as applicable, identify each Bunched Order subject to post-execution allocation and the accounts to which Contracts executed for the Bunched Order were allocated, as required by Commission regulation 1.35(b)(5).

Audit Trail Tier 1 and Tier 2 Architecture

The following diagram depicts the scope of the audit trail responsibilities according to Tier 1 and Tier 2 architectural classifications.

Minimum Acceptable Audit Trail Elements – Data Definitions and Validation Rules

This table describes the front-end audit-trail specifications required to represent data exchanged between a trading system and NFX in your front-end audit trail. The data must be captured in .csv or Excel format.

The order of the columns must be followed in the file submission. Additional columns may be added at the end of the file for internal use by the firm. The layout includes the FIX Tag where applicable/available and is provided for reference only.

Specifications representing each message type supported on NFX are available in this section. For further description of data elements to capture in Tier 1, please refer to the FIX specification posted on Nasdaq Futures, Inc. website found here:
